

What is claimed is:

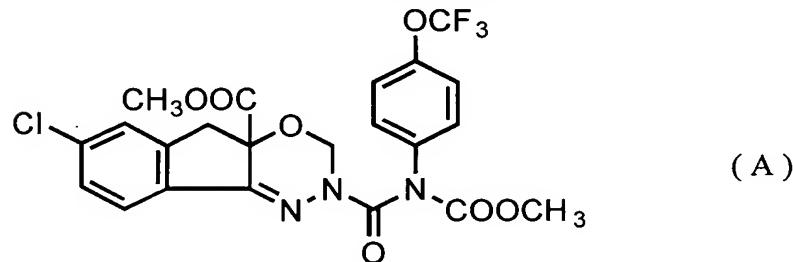

1. A pesticidal composition which comprises an oxadiazine compound given by formula (A):

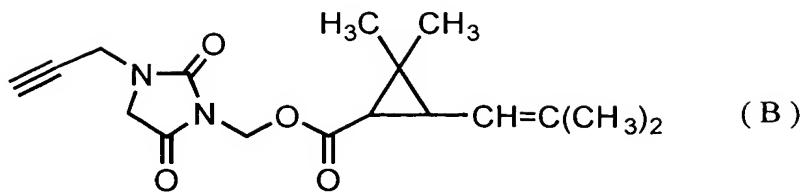

and an ester compound given by formula (B):

- 5 as active ingredients, wherein the weight ratio of the oxadiazine compound given by formula (A) to the ester compound given by formula (B) is within the range of 50:1 to 1:10.
2. The pesticidal composition according to claim 1, wherein the weight ratio of the oxadiazine compound given by formula (A) to the ester compound given by formula (B) is within the range of 20:1 to 1:4.
- 10 3. A method for controlling pests which comprises applying an effective amount of an oxadiazine compound given by formula (A):

and an ester compound given by formula (B):

to pests or a place where the pests inhabit, wherein the weight ratio of the oxadiazine compound given by formula (A) to the ester compound given by formula (B) is within the range of 50:1 to 1:10.

4. The method for controlling pests according to claim 3, wherein the weight ratio of the oxadiazine compound given by formula (A) to the ester compound given by formula (B) is within the range of 20:1 to 1:4.
5. The method for controlling pests according to claim 3, wherein the pests are cockroaches.
6. The method for controlling pests according to claim 3, wherein the pests are flies.
- 10 7. The method for controlling pests according to claim 3, wherein the pests are mosquitoes.
8. The method for controlling pests according to claim 3, wherein the pests are termites.
- 15 9. The method for controlling pests according to claim 3, wherein the pests are ants.
